STOP/STOP, STOP/SLOW Flashing LED Hand-Held Paddle Signs

General Description

Hand-held LED lighted paddle signs help protect children, crossing guards and other road personnel by commanding the attention of oncoming drivers under all weather conditions. Our lightweight, two-sided paddles feature "STOP" or "SLOW" in large letters that are high-lighted by ultra-bright white LEDs. The LEDs can be operated in steady-on or flashing mode. The paddle also features 3M Diamond Grade reflective sheeting that provides outstanding reflective brightness, day or night.

To conserve battery life, the LEDs will automatically turn off when the paddle is lowered. The rechargeable lithium-ion battery pack provides over 12 hours of continuous flashing per charge.

Applications

- Crossing guard awareness programs.
- Police/fire traffic and accident control.
- Highway construction projects.
- Utility company service/repair operations.
- Commercial roadway tree trimming operations.

Features

- Ultra-bright LEDs command drivers' attention.
- LEDs visible over one mile away.
