SafePace 250 Driver Feedback Radar Speed Sign

General Description

The SafePace 250 driver feedback sign is a compact, portable, radar sign with 12" digits. It can be mounted at multiple locations with a universal mounting bracket and can function autonomously for weeks at a time with optional battery power.

Features

- **MUTCD compliant** with static "YOUR SPEED" message and highly visible 12" LED digits that are visible from up to 1,000 feet away.
- Includes **integrated flashing speed violator strobe** to alert speeding drivers.
- **User friendly software interface** allows you to manage sign parameters such as threshold speeds and violator strobe remotely.
- **Optional data collection** with robust reporting module generates standardized reports for traffic analysis while including custom reporting options for more advanced users.
- **Ultra low power consumption** including the most power-efficient radar technology available, optional solar power, and optional battery power that allows the sign to **function autonomously for up to five weeks**.
- **Superior construction** and durability for long-lasting performance.
- High strength aluminum sign face and individual optical lenses to **protect against vandalism and theft**.
- **Stealth Mode** allows the sign to collect baseline traffic data while speed display appears blank to motorists (requires Data Collection option).
